Dear Colleagues,

we are glad to announce that the 10th AME National Meeting – 5th Joint Meeting with AACE will be held in Naples from 5 to 7 November 2010. This meeting will be a relevant cultural and scientific event and a great opportunity to compare our clinical experiences with distinguished Italian, European and American colleagues. Several sessions, indeed, will be held as joint events with the major Italian, European and American Scientific Societies operating in the various areas of endocrinology.

As usual, a large part of the Meeting will be addressed to a careful update of the traditional topics of endocrinology, andrology, and diabetes and of all technological innovations that appear relevant for clinical practice. A special attention will be focused on endocrine oncology, transition, lipid and bone metabolism, and on kidney as an endocrine organ.

Sessions will be interactive and the participants will be involved in the discussion of clinical cases and diagnostic and therapeutic algorithms. For the first time, the participants will be able to review together with two distinguished experts the most relevant scientific articles published during year 2010 in the main fields of endocrinology and metabolism.

The Joint Meeting with the Nurse in Endocrinology and Diabetes Association (ANIED) and a large Exhibition of pharmaceutical products and technical devices will add a further practical interest to the scientific program. A special attention will be devoted to the activities and programs of Patients Organizations operating in the field of endocrinology.

The AME and AACE Presidents and the Local Organizing Committee look forward to meet you in Naples, a magnificent venue that is rich of history, art and natural beauties, to share a great occasion of human, cultural and professional improvement.

HIGHLIGHTS

- **Pituitary**
- **Thyroid**
- **Diabetes**
- **Female gonad**
- **Male gonad**

Two distinguished experts in the various fields of endocrinology will review the most relevant articles published during the last year. After the analysis of the paper, its importance for clinical management will be evaluated and discussed with the participants. All highlights will be repeated to facilitate attendance to the session.

MEET THE EXPERT

- **Management of Graves' orbitopathy**
- **Ejaculatio precox: diagnosis and therapy**
- **Obesity: a differential diagnosis**
- **Current management of hyponatremic syndromes**
- **Menstrual disturbances in the adolescent**
- **Non-insulin treatment in the elderly diabetic**

AME and AACE experts will present clinical up-to-date information on diagnostic procedures and endocrine and metabolic disorders commonly encountered in everyday practice.

CLINICAL CASES DISCUSSION

- **Metabolism**
- **Diabetes**
- **Female Gonads**
- **Thyroid**
- **Autoimmune disorders**
- **Pituitary**

Two young endocrinologists will present clinical cases to be discussed together with a senior expert and the participants.

NURSES IN ENDOCRINOLOGY

The 5th AME – ANIED Joint Meeting will be held on Saturday, November 6.

All sessions will be held in Italian.

POSTER SESSION

The deadline for abstract submission is **September 20, 2010**.

Authors will be notified of the abstract acceptance by October 15, 2010.
